Key

- Existing OHL
- Proposed Tower Position
- Proposed OHL Alignment
- 3km Study Area
- Viewpoint

Zone of Theoretical Visibility: Number Of Towers Theoretically Visible

- 1 - 10
- 10 - 20
- 20- 30
- 30 - 40
- 40 - 47

The ZTV is calculated based on the OHL tower height of proposed new towers and a viewer height of 1.6m above ground level. Tower visbility is cut off at 10km. The terrain model assumes bare ground and is derived from OS Terrain 5 data. Earth curvature and atmosphere refraction have been taken into account.

0 1 2 Kilometres

Client: Scottish & Southern Electricity Networks TRANSMISSION

Project: Dunoon to Loch Long 132kV OHL Rebuild

Title: Figure 6.1 Zone of Theoretical Visibility Page 1 of 2

Date:	23/12/2022			Scale:	50,000 @ A3
Drawn:	AS	Checked:	IM	Approved:	JG
