Key (Continued)

Current Tree Cover

- Conifer Crops (Mainly Sitka Spruce)
- Native Broadleaves
- Open Ground
- Access Track - Existing Upgrade
- Access Track - New Stone Permanent
- Access Track - New Stone Temporary

TRANSMISSION

Dunoon to Loch Long 132kV OHL Rebuild

Figure 12.2.17
Appraisal & Mitigation of Forestry Landscape Impacts
Glenfinart Forest, Ardentinnay - Proposed Powerline Felling

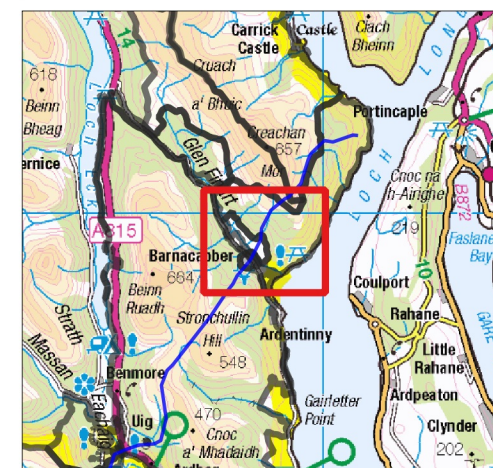

Key

- Property Boundary
- Proposed OHL Alignment
- Proposed Tower Position
- Operational Corridor
- Temporary Diversion
- Temporary Diversion Structure
- Temporary Diversion 30m Buffer
- Prominent Viewpoint

Proposed Powerline Felling

- Mature Conifer Removal within 81m Operational Corridor, 20m Access Track Corridor and 60m Temporary Diversion Corridor
- Broadleaved Woodland within 60m Operational Corridor and 60m Temporary Diversion Corridor
- Young Tree Crop Removal with 81m Operational Corridor
- Management Felling Area

Planned FLS felling coupes integrate with a proportion of the powerline felling, facilitating removal of mature conifer crop back to a windfirm edge.
