Abernethy Substation Extension Virtual Consultation

**SSEN Transmission invites you to come
and share your views with us**

Scottish and Southern Electricity Networks (SSEN) are holding a virtual consultation exhibition to gain views and feedback on our proposals that would see a 132kV extension to the existing Abernethy substation to enable the connection of 57 megawatt (MW) of new renewable generation.

The virtual consultation events have been designed to be as interactive as face to face events, allowing for presentation of key project information and plans, as well as providing an opportunity to ask questions about the project. Visitors will be able to engage directly with the project team, via a live chat function, where they can ask any questions they might have about the project and share their feedback on the current proposals.

To find out how you can join the interactive virtual consultation visit the project website:

www.ssen-transmission.co.uk/projects/abernethy-substation-extension/

The virtual consultation event
will be taking place on:

Tuesday
7 July 2020

2-4pm & 6-8pm
