# Achany wind farm connection Public consultation event

## SSEN Transmission invites you to come and share your views with us.

Following the earlier consultation event held in November 2022 Scottish and Southern Electricity Networks (SSEN) Transmission is holding a further consultation exhibition for the Achany Wind Farm Connection Project.

The Achany consultation is focused on SSEN Transmission's alignment for the new grid connections, using a 132kV trident wood pole overhead line. We would welcome your feedback on our proposals ahead of our submitting a Section 37 to The Energy Consents Unit in late 2023.

At the event key project information and plans will be on display and provide an opportunity for members of the community to ask questions about the project to team members and share their feedback on the alignment.

Please note comments made to Scottish and Southern Electricity Networks Transmission (SSEN Transmission) are not representations to the Scottish Ministers and if SSEN Transmission submits an application there will be an opportunity to make representations on that application to the Scottish Ministers.

If you are unable to join the event or have difficulty reviewing the project information online, please contact me Lisa Marchi and we will arrange for information to be posted to you.

All the information that will be on display can also be viewed by visiting the project webpage:

**[sseo-transmission.co.uk/projects/project-map/achany-wind-farm-extension-connection](https://sseo-transmission.co.uk/projects/project-map/achany-wind-farm-extension-connection)**

The consultation  
will be held at the  
following location:

**Rosehall Hall,  
Rosehall**

**Wednesday 14th  
June 2023**

**15:00 – 19:00**

If you have any questions, please do not hesitate to contact the Community Liaison Manager:
