

# Elchies (Rothes III) Grid Connection Virtual Consultation

## SSEN Transmission invites you to come and share your views with us

Scottish and Southern Electricity Networks (SSEN) are holding two virtual consultation exhibitions to gain views and feedback on our proposals that would see a 132kV single circuit, double trident wood pole overhead line between Elchies substation and Blackhillock substation in order to provide a connection for Elchies Windfarm. The overhead line would run approximately 24km.

The virtual consultation events have been designed to be as interactive as face to face events, allowing for presentation of key project information and plans, as well as providing an opportunity to ask questions about the project. Visitors will be able to engage directly with the project team, via a live chat function, where they can ask any questions they might have about the project and share their feedback on the current proposals.

To find out how you can join the interactive virtual consultation visit the project website:

[www.ssen-transmission.co.uk/projects/elchies-rothes-iii-wind-farm-grid-connection](http://www.ssen-transmission.co.uk/projects/elchies-rothes-iii-wind-farm-grid-connection)

The virtual consultation events will be taking place on:

**8 July 2020**  
**1-3pm & 5-7pm**

**9 July 2020**  
**2-4pm & 6-8pm**
