

Note: The PAN boundary includes the proposed platform together with all other potential site requirements, including site compounds, drainage, access, parking, laydown and storage areas and landscaping proposals. Many of these requirements will be temporary and will be permanently removed upon completion. The PAN boundary does not represent the permanent footprint of the site but indicates a maximum construction area. This may be reduced as design progresses but will not increase in size.

- Legend**
-  Existing Overhead Line
 -  Redline Boundary (9.81 ha)
