

- Hurlie red line boundary (tracks removed)
 - - - LVIA study area boundary (5km buffer from red line boundary)
 - ▭ Electrical layout and fence line
 - - - Kintore to Tealing 400 kV OHL
- Screening**
- Building
 - Woodland (mixed mainly conifer, mixed mainly broadleaved, conifer, broadleaved, young trees)
- Zone of theoretical visibility (with screening to 5km)**
- Theoretically more visible
 - Theoretically less visible
- ∨ 53.5° Field of View
- ∨ 90° Field of View

The ZTV indicates the theoretical visibility of the proposed development (excluding the OHL). The ground elevation of the fence line and electrical infrastructure is set to 222.35m with a height of 13.5m added to the electrical infrastructure, a height of 5.9m added to the control building, a height of 15m added to the component covers and a height of 3.9m added to the fence line. Screening layers (up to 5km) include cut and fill, buildings set to 8m and national forest inventory categories mixed mainly conifer, mixed mainly broadleaved, conifer, broadleaved young trees set to 15m and 5m for young trees. A viewer height of 2m was used. The terrain model is based on Ordnance Survey OS Terrain 5 digital terrain model (DTM) data. Earth curvature and atmospheric refraction have been taken into account. The ZTV was calculated using ArcGIS Pro 3.3.1 software.
