

Proposed route widened to the east at Echt to allow alignment options to move further from property constraints.

Proposed route widened to the east at Schoolhill to allow for further alignment options that will increase distance from areas of flooding and residential properties.

Proposed route widened to the west at Schoolhill to provide alignment options that will increase distance from areas of flooding and residential properties.

*Refined routes are approximately 500m wide, within which we aim to identify an optimal alignment for the OHL
