## PREFACE

Scottish and Southern Electricity Networks Transmission (herein referred to interchangeably as ‘SSEN Transmission’ or ‘the Applicant’), operating under licence as Scottish Hydro Electric Transmission plc (SHE Transmission plc), is part of the SSE plc group of companies. SSEN Transmission owns and maintains the electricity transmission network across the north of Scotland and holds a licence under the Electricity Act 1989 to develop and maintain an efficient, coordinated and economical system of electricity transmission.

The Applicant is applying for consent under Section 37 of the Electricity Act 1989 to upgrade approximately 37 kilometres (km) of an existing 275 kilovolts (kV) overhead line (OHL), which connects substations at Tealing and Westfield, to enable operation at 400kV (hereafter referred to as ‘the Proposed Development’). The main components of the Proposed Development comprise the replacement of conductors, insulators, and fittings on the existing steel lattice towers. Where required, tower condition works, including steelwork and tower leg foundation work to strengthen existing steel lattice towers, will also be undertaken.

This Environmental Impact Assessment (EIA) Report is submitted with the application in accordance with the Electricity Works (Environmental Impact Assessment) (Scotland) Regulations 2017 (the ‘EIA Regulations’).

The EIA Report contains the following volumes:

- Volume 1 – Non-Technical Summary;
- Volume 2 – EIA Report;
- Volume 3 – Figures; and,
- Volume 4 – Technical Appendices;

Notice of the Section 37 application, including this EIA Report and associated documents and figures, will be available for viewing at the following public locations during normal opening hours:

- Perth & Kinross Council, Pullar House, 35 Kinnoull Street, Perth, PH1 5GD (normal opening: hours Monday to Friday 8.45am to 5.00pm);
- Angus House, Orchardbank Business Park, Orchardbank, Forfar, DD8 1AN (opening hours: Monday to Friday 8.00am to 5.00pm); and,
- Newburgh Library and Heritage Centre Tayside Institute, 90-92 High Street, Newburgh, KY14 6DA (opening hours: Monday 10.00am to 1.00pm, Wednesday 2.00pm to 5.00pm, Thursday 2.00pm to 6.00pm and Saturday 9.30am to 12.30pm).

An electronic version is available online at: <https://www.ssen-transmission.co.uk/projects/project-map/tealing---westfield-overhead-line-upgrade>.

Any representations in respect of the application may be submitted by email to the Scottish Government via [representations@gov.scot](mailto:representations@gov.scot); or by post to the Scottish Government, Energy Consents Unit, 4th Floor, 5 Atlantic Quay, 150 Broomielaw, Glasgow, G2 8LU, identifying the proposal and specifying the grounds for representation.

Written or emailed representations should be dated, clearly stating the name (in block capitals) and full postal address of those making representations. Emailed representations should also include the full return email address of those making representations. Only representations sent by email to [representations@gov.scot](mailto:representations@gov.scot) will receive acknowledgement.

All representations should be received no later than the date falling 30 days from the date of the last published notice, although Ministers may consider representations received after this date. Any subsequent additional information which is submitted by the Applicant will be subject to further public notice in this manner, and representations to such information will be accepted as per this notice.

The EIA Report has been advertised in the following newspapers:

- Edinburgh Gazette;

- Perthshire Advertiser;
- The Dundee Courier; and,
- The Courier (Fife).

This EIA Report is available in other formats if required. For details, including costs, contact:
